Some Useful Tips

- Close and lock your doors and windows. Most burglaries occur because windows have been left open or doors left unlocked. Remember to do this even if you are just going out for a short while.
 - Don't leave valuables on view through windows where potential burglars can see them.
 - Security mark your property with a UV invisible marker. Include your postcode and the number and/or name of your house.
-
- Don't leave a set of keys under a flower pot, doormat or other easily accessible spot outside your house. It may be convenient, but it's the first place a burglar will look if they are trying to get in to your home.
 - Don't leave keys in doors or lying around. Never leave keys on a hook that can be easily viewed from outside the house. If thieves do break in and find your keys, it's much easier for them to exit through a door and take more of your property. Keep keys out of sight and in a safe place.
 - Leave lights on. When you go out at night, leave the lights on and curtains drawn in rooms where the thief might expect you to be, such as living rooms and bedrooms. For additional effect, you could leave the TV or radio on as well.
 - Never leave a garage or garden shed unlocked.
 - Lock away garden tools. Ensure ladders and garden tools are out of sight and secure to prevent burglars from using them to break into your home.
 - Keep garden gates locked.
 - Insurance of your contents and personal belongings is advisable and will give you peace of mind.

Keep Secure

In an
Emergency:
Always dial 999

If you get home and discover signs of a break in:

- Be careful the thief may still be inside and there may be broken glass around.
- Contact the Police immediately.
- Do not touch anything until after the Police have attended and confirmed you may do so.
